One week online short term training Program on “VLSI Design and Verification”

One week online short term training Programme on “VLSI Design and Verification” was conducted from March 22nd to 27th march 2021 by the department of ECE. This online short term training Programme was organized for faculty members. The resource person for the event was Dr.V.Narendra, Assistant professor ECE Department, NIT, Warangal.

In this event Dr.V.Narendra explained the importance of VLSI Design and its Verification. This online training program was successful as faculty members learned the concept how to analyze the VLSI Methodology and its verification in present generation, as it became more useful and in processing.

An online guest lecture on "Introduction to Communication and Signal Processing” was organized by department of ECE. On the first day Dr.Rajendra Pasad Somineni, VNR ENG College, Bachupalli, Nizampet. Hyd, explained the students online about communication signal processing, and its methods. Students got good knowledge about the communication concept signal processing. Nearly 130 students participated on the first day felt happy learning from the industry experts. On second day the resource was Dr.J. Naga Vishnu Vardhan, Profsser,ECE, BVRIT HRD .He explained about communication signal processing and how to develop the communication signals. Students understood the concepts of Communication signal processing and its applications in the event.
