14.11 To consider the proposal to introduce second evaluation for the selected UG subjects yielding poor results (In the Semester End Examination)

Principal presented the significance to introduce second evaluation for the selected UG courses to the council.

It is noticed that a few students have been badly affected due to errors made by evaluators during the first time evaluation of answer scripts. To ensure the fair assessment and prevent students from suffering due to such errors, it was proposed to implement a partial double evaluation system (or) second valuation for the subjects yielding poor results (less than the average of the other subjects). This system aims to minimize discrepancies and ensure accurate evaluation of answer scripts.

The Principal, in turn, will approve for second valuation. Second valuation addresses the potential discrepancies. The final marks awarded to the students will be determined based on the best scores from the two evaluations. The introduction of this partial double evaluation system will enhance the accuracy and fairness of the evaluation process.
