

ANNAMACHARYA INSTITUTE OF TECHNOLOGY AND SCIENCES :: RAJAMPET**Department of Humanities and sciences****COURSE END SURVEY REPORT****Course:** Algebra and Calculus (20AC11T)**Offered to:** Common to all

The course met my expectations.	91.10
The course met my needs.	90.86
The course was challenging.	90.78
The course made me think.	90.94
The course increased my level of interest in this field of study.	90.53
The course gave me confidence to do more advanced work in the subject.	89.96
The course enhanced my ability to summarize, synthesize, analyze, and apply information.	89.88
The course was organized in a manner that helped me understand underlying concepts.	90.20
The course consists of modern / advanced topics in the field of study.	89.31
The number of classes per week are appropriate for the course level.	90.20
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	89.55
The lectures, study material, assignments and exams complemented each other.	90.94
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	91.51
The exams and assignments were reflective of the course content	90.53
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	91.10
I received useful feedback on my performance in exams/assignments	90.29
The course outcomes are appropriate to the objectives of the course.	89.63
The course outcomes are well-defined.	90.45
The course contents (syllabus) are relevant in attaining course outcomes.	91.59
I have confidence that I am able to achieve the desired course outcomes.	91.59
This course helped me to apply the knowledge to solve System of linear equations	91.67
This course improved my ability to develop the use of matrix algebra techniques that is needed by engineers for practical applications	91.10
The course increased my ability to classify the functions of several variables which is useful in optimization	91.02
My ability to solve important tools of calculus in higher dimensions and be familiar with 2-dimensional, 3-dimensional coordinate systems has increased	90.45
I am now able to understand the properties of beta and gamma functions and its relations	91.18
Overall, how would you rate the course?	91.76

Head of the Department
Humanities & Sciences
Annamacharya Institute of Tech. & Sciences
New Boyanaballe, Rajampet - 516 126

ANNAMACHARYA INSTITUTE OF TECHNOLOGY AND SCIENCES :: RAJAMPET**Department of Humanities and sciences****COURSE END SURVEY REPORT****Course:** Applied Physics (20AC12T/22T) **Offered to:** Common to EEE, ECE, AIML, CSE, AIDS

The course met my expectations.	85.45
The course met my needs.	85.29
The course was challenging.	86.54
The course made me think.	85.60
The course increased my level of interest in this field of study.	85.06
The course gave me confidence to do more advanced work in the subject.	85.68
The course enhanced my ability to summarize, synthesize, analyze, and apply information.	85.68
The course was organized in a manner that helped me understand underlying concepts.	85.99
The course consists of modern / advanced topics in the field of study.	85.29
The number of classes per week are appropriate for the course level.	86.46
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	86.54
The lectures, study material, assignments and exams complemented each other.	89.03
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	87.63
The exams and assignments were reflective of the course content	88.48
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	87.16
I received useful feedback on my performance in exams/assignments	87.94
The course outcomes are appropriate to the objectives of the course.	86.77
The course outcomes are well-defined.	87.78
The course contents (syllabus) are relevant in attaining course outcomes.	88.72
I have confidence that I am able to achieve the desired course outcomes.	86.61
This course helped me to explain the concepts of interference, diffraction and polarization and identify their applications in engineering field	89.57
This course improved my ability to summarize the various types of polarization of dielectrics, classification of magnetic materials and the applications of dielectric and magnetic materials	88.40
The course increased my ability to apply electromagnetic wave propagation in different guided media and Explain fiber optics concepts in various fields with working principle	87.24
My ability to outline the properties of various types of semiconductors and identify the behavior of semiconductors in various fields has increased	88.95
I am now able to explain various concepts of superconductors and nanomaterials with their applications in various engineering branches	88.64
Overall, how would you rate the course?	86.77

The course outcomes are appropriate to the objectives of the course.	94.42
The course outcomes are well-defined.	93.46
The course contents (syllabus) are relevant in attaining course outcomes.	93.65
I have confidence that I am able to achieve the desired course outcomes.	93.85
This course helped me to operate various optical instruments and estimate various optical parameters	93.27
This course improved my ability to estimate the various magnetic properties	93.27
The course increased my ability to measure properties of semiconductors	92.50
My ability to determine the properties of dielectric materials and optical fiber materials has increased	93.65
Overall, how would you rate the course?	93.46

The number of classes per week are appropriate for the course level.	88.48
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	89.00
The lectures, study material, assignments and exams complemented each other.	88.58
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	88.96
The exams and assignments were reflective of the course content	88.64
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	87.99
I received useful feedback on my performance in exams/assignments	88.90
The course outcomes are appropriate to the objectives of the course.	87.90
The course outcomes are well-defined.	89.09
The course contents (syllabus) are relevant in attaining course outcomes.	88.22
I have confidence that I am able to achieve the desired course outcomes.	88.58
This course helped me to explain the significance of electrode potentials, classify ion selective electrodes, and list different types of electrodes	88.61
This course improved my ability to compare various batteries, explain the concepts involved in the construction of lithium cells, different fuel cells and apply redox principles for construction of batteries and fuel cells	88.61
The course increased my ability to illustrate the mechanism of conduction in conducting polymers, and explain the preparation, properties, and applications of various polymers	88.32
My ability to differentiate various analytical techniques has increased	87.83
I am now able to compare molecular switches and molecular machines, and distinguish between molecular machines	88.06
Overall, how would you rate the course?	88.48

The course met my expectations.	90.12
The course met my needs.	89.88
The course was challenging.	90.36
The course made me think.	89.88
The course increased my level of interest in this field of study.	90.83
The course gave me confidence to do more advanced work in the subject.	90.60
The course enhanced my ability to summarize, synthesize, analyze, and apply information.	89.40
The course was organized in a manner that helped me understand underlying concepts.	89.76
The course consists of modern / advanced topics in the field of study.	89.64
The number of classes per week are appropriate for the course level.	90.83
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	91.55
The lectures, study material, assignments and exams complemented each other.	90.83
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	90.71
The exams and assignments were reflective of the course content	88.69
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	90.48
I received useful feedback on my performance in exams/assignments	89.76
The course outcomes are appropriate to the objectives of the course.	89.76
The course outcomes are well-defined.	89.52
The course contents (syllabus) are relevant in attaining course outcomes.	90.24
I have confidence that I am able to achieve the desired course outcomes.	90.48
This course helped me to understand the context, topic, and pieces of specific information from social or transactional dialogues spoken by native speakers of English	89.64
This course improved my ability to read, scan and skim texts such as literary forms, journalistic articles and scientific readings for comprehension and retention	89.64
The course increased my ability to exhibit self-confidence and speak in formal and informal contexts	90.83
My ability to apply grammatical knowledge in speech and writing and formulate sentences with accuracy has increased	90.00
I am now able to produce coherent and unified paragraphs with adequate support and detail	89.76
Overall, how would you rate the course?	91.67

I received useful feedback on my performance in exams/assignments	91.96
The course outcomes are appropriate to the objectives of the course.	91.34
The course outcomes are well-defined.	91.96
The course contents (syllabus) are relevant in attaining course outcomes.	91.96
I have confidence that I am able to achieve the desired course outcomes.	91.16
This course helped me to solve the differential equations related to various engineering fields	91.96
This course improved my ability to generalize and solve the higher order differential equation by analyzing physical situations	91.25
The course increased my ability to identify solution methods for partial differential equations that model physical processes	91.16
My ability to understand the physical meaning of different operators such as gradient, curl and divergence has increased	92.14
I am now able to find the work done against a field, circulation and flux using vector calculus	91.61
Overall, how would you rate the course?	92.05

The course consists of modern / advanced topics in the field of study.	97.5
The number of classes per week are appropriate for the course level.	100
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	100
The lectures, study material, assignments and exams complemented each other.	92.5
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	95
The exams and assignments were reflective of the course content	95
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	95
I received useful feedback on my performance in exams/assignments	95
The course outcomes are appropriate to the objectives of the course.	97.5
The course outcomes are well-defined.	95
The course contents (syllabus) are relevant in attaining course outcomes.	95
I have confidence that I am able to achieve the desired course outcomes.	100
This course helped me to understand the characteristics and behavior of various materials	97.5
This course improved my ability to estimate the basic characteristic quantities of LASER and ultrasonics	100
The course increased my ability to exhibit an ability to use techniques and skills associated with modern engineering tools such as fiber optics and sensors.	97.5
I am now able to measure properties of a semiconductors, magnetic and dielectric materials.	97.5
Overall, how would you rate the course?	92.5

ANNAMACHARYA INSTITUTE OF TECHNOLOGY AND SCIENCES :: RAJAMPET**Department of Humanities and sciences****COURSE END SURVEY REPORT****Course:** Environmental Science (20AC16T/26T) **Offered to:** Common to all

The course met my expectations.	88.58
The course met my needs.	88.51
The course was challenging.	87.73
The course made me think.	89.15
The course increased my level of interest in this field of study.	88.72
The course gave me confidence to do more advanced work in the subject.	88.72
The course enhanced my ability to summarize, synthesize, analyze, and apply information.	88.44
The course was organized in a manner that helped me understand underlying concepts.	88.87
The course consists of modern / advanced topics in the field of study.	88.94
The number of classes per week are appropriate for the course level.	87.30
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	88.79
The lectures, study material, assignments and exams complemented each other.	87.80
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	88.94
The exams and assignments were reflective of the course content	87.94
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	88.87
I received useful feedback on my performance in exams/assignments	89.15
The course outcomes are appropriate to the objectives of the course.	89.15
The course outcomes are well-defined.	90.07
The course contents (syllabus) are relevant in attaining course outcomes.	89.29
I have confidence that I am able to achieve the desired course outcomes.	90.64
This course helped me to explain how natural resources should be used	90.21
This course improved my ability to identify the need to protect ecosystems and biodiversity for future generations	90.35
The course increased my ability to list out the causes, effects, and control measures of environmental pollution	90.28
My ability to demonstrate knowledge to the society in the proper utilization of goods and services	89.08
I am now able to outline the interconnectedness of human dependence on the earth's ecosystems	90.28
Overall, how would you rate the course?	89.86

The course met my expectations.	79.33
The course met my needs.	79.41
The course was challenging.	79.92
The course made me think.	79.08
The course increased my level of interest in this field of study.	78.08
The course gave me confidence to do more advanced work in the subject.	77.82
The course enhanced my ability to summarize, synthesize, analyze, and apply information.	78.16
The course was organized in a manner that helped me understand underlying concepts.	79.25
The course consists of modern / advanced topics in the field of study.	77.99
The number of classes per week are appropriate for the course level.	78.24
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	80.00
The lectures, study material, assignments and exams complemented each other.	80.84
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	79.58
The exams and assignments were reflective of the course content	80.42
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	79.67
I received useful feedback on my performance in exams/assignments	81.34
The course outcomes are appropriate to the objectives of the course.	80.75
The course outcomes are well-defined.	81.09
The course contents (syllabus) are relevant in attaining course outcomes.	80.00
I have confidence that I am able to achieve the desired course outcomes.	79.58
This course helped me to explain stages of Systematics.	79.83
This course improved my ability to summarize application of biomolecules.	78.83
The course increased my ability to identify DNA as a genetic material in the molecular basis of information transfer.	81.26
My ability to analyze biological processes at the Genetic Engineering has increased	80.42
I am now able to identify the potential of recombinant DNA technology.	80.42
Overall, how would you rate the course?	78.41

The course met my expectations.	90.96
The course met my needs.	89.88
The course was challenging.	90.12
The course made me think.	90.48
The course increased my level of interest in this field of study.	90.48
The course gave me confidence to do more advanced work in the subject.	89.88
The course enhanced my ability to summarize, synthesize, analyze, and apply information.	88.19
The course was organized in a manner that helped me understand underlying concepts.	89.88
The course consists of modern / advanced topics in the field of study.	89.28
The number of classes per week are appropriate for the course level.	91.20
The instructional materials (i.e., prescribed textbooks, reference books, study material, lab manual, multimedia, software) increased my knowledge and skills in the subject.	88.80
The lectures, study material, assignments and exams complemented each other.	92.05
The written assignments (formative tests) contributed to my knowledge of the course and understanding of the subject.	91.81
The exams and assignments were reflective of the course content	90.96
The exams/assignments/project/other graded work were a fair assessment of my knowledge of the course material.	91.20
I received useful feedback on my performance in exams/assignments	91.45
The course outcomes are appropriate to the objectives of the course.	90.96
The course outcomes are well-defined.	90.96
The course contents (syllabus) are relevant in attaining course outcomes.	90.96
I have confidence that I am able to achieve the desired course outcomes.	92.29
This course helped me to apply the knowledge of numerical methods to solve algebraic and transcendental equations and acquire the knowledge of interpolation	90.96
This course improved my ability to apply the techniques of numerical differentiation, Integration and numerical solutions of ordinary differential equations to engineering Problems	91.20
The course increased my ability to calculate and interpret the correlation between two variables	90.48
My ability to analyze the basic concepts of probability and random variables	90.48
I am now able to use probability distribution for random variables in Engineering field	89.28
Overall, how would you rate the course?	92.17
